

GEORGIA CUMBERLAND CONFERENCE
“CHANGED” CYBER CAMPOREE/CLUB CAMPOUT
SEPTEMBER 18-20, 2020

The conference is hosting a “virtual camporee” this year on September 18-20. It is the postponed event from last spring. Due to regulations regarding number of people allowed to group together in Georgia, typically Camporee has over 2000 attendants, they have opted to host this Camporee online. Here are some details:

- The conference will be hosting some activities via online access. These may include a live speaker and several activities to be completed on our own.
- They have suggested individual clubs participate in the manner best suited for each club. We will be camping on our own as a club at Gee Creek and attempting to engage with the conference activities as signal strength, power source, and opportunity permit. It is not guaranteed that we will be able to participate in everything, but we will try our best.
- The cost of the campout will be \$60/pathfinder. This includes a \$10 fee assessed by the conference for the Cyber Camporee. This will purchase a patch and a pin for each participant and allow access to the speaker/activities. If we are unable to access all the event’s activities, then at the very least each participant will receive the patch and pin.
- We **MUST** know by September 2nd if your child plans to attend this event. That is the conference deadline for registration. Be prepared on registration night to give consent to attend. Payment will be due by September 16th
